Abstract

Muhiyee Al-Deen Abdullah bin Abdul-Dahir is one of the first historians of the Mamluk period in Egypt and Blad Al-Sham. He wrote books in the biography of their Sultans: first: The Biography of Al-Dahir Baybars (the subject of the research), second: The Biography of The King Al- Mansoor Qalawn, Third: The Biography of The King Al-Ashaf Khaleel bin Qalawn. He also has other writings relevant to his interest in the composition divan like a book on dove and its Kinds, a book on the Cairo Plans quoted in many of the books that tackle Cairo Plans.

In the Biography of Al-Dahir King, Ibn Abdul-Dahir has tackled in detail Baybars's life, works, and events happened in his reign. This Biography has been edited by two editors: Miss Fatima Sadiqu in Partial Fulfillment of Ph.D i – London based on the manuscript in the British Museum, Dr. Abdul-Azeez Al- Khuaitar in Partial Fulfillment of Ph.D i – London based on London manuscript and the manuscript of the library of Aya Soufia in Turkey. I've tried in this research to critically revise the book showing the defects and Pitfalls passed unnoticed by the editors.

This is not meant, however, to belittle their works.
